Dear staff at the Headache Clinic,

As a person who had never suffered from severe headaches, I became quite worried when I got a headached that was severe, and lasted for weeks. I heard about the Headache Clinic and decided to try it out. I was given a multitude of tests and given a plate to wear in my mouth the next week. I was surprised to find that after 1 hour, I felt a change in my facial muscles and after 2 hours the headache was gone. I woke up without a headache for the first time in weeks. For the last 2 weeks, I have not had a headache!

Thank you for all you have done for me.

Regards
