Dr. M. Orelowitz,
The Headache Clinic,
P.O. Box 1002
Saxonwold 2132
R.S.A.

Dear Dr. Orelowitz,

Since my final visit to the Clinic about 3 weeks ago and since wearing the Posture Modifying Appliance I am delighted to report that I have **not had a headache**. I have even had tea, coffee, red wine etc. and still NO headache.

After 20 years of regular headaches, culminating in one long perpetual headache I was miserable and would have come down sooner if we weren't so far away. Now I think the treatment is so good it is worth bringing my mother out from England for an assessment.

I hope you all have long, happy, healthy, prosperous lives and if you ever come to Gaborone and see a middle aged lady doing flick flacks of joy you will know it is me and it is all due to your Clinic.

I will fax this today but send the original letter in the post.
