

Dear Dr. Shovel

20/5/09

Please accept these collages as a token of my gratitude. Part of the reason why I did not return as soon as I should for my follow up appointments was because I was struggling to get the cash together.

So, there are so many things about the headache clinic which makes it a phenomenal experience. Firstly was your personal interest in the case, and that you personally checked me up. Secondly was your very generous offer to give the treatment and the mouth-things to me free of charge. That is truly phenomenal.

Now for the very final miracle (I hope) is that pretty soon I will be able to stop the epilepsy medication.

I made these collages by cutting up some of my old drawings and a Hungarian forint which were very beautiful but worthless banknotes. I hope you like them, and if you don't, keep them under your bed, they might be worth something soon!

Once again, Thank you
so very very much.

Marlise Keitz.
