

DEAR HEADACHE CLINIC

I had been suffering from bad headaches for 7 years. I went through all doctors you can think of. I came for consultation in 2006 May. Dr. Orelowitz and Dr. Shovel together with the team saved my life, I had already given up hope. The pain I use to feel was unbearable.

I can gladly confirm now that since my treatment I had never had a headache for two years, not even a slight hint of a headache, Never taken a headache tablet.

I would recommend everyone who has headache problems to VISIT headache clinic. you guys are the best GOD bless you all.
