THE HEADACHE CLINIC CURED ME

I want to thank the Headache Clinic for relieving me from severe pain I experienced for years. I was haunted by migrane since 1984.

My general practisioner refered me to different specialists but they were unable to find the cause of it. I gave up and became the victim of severe headache which caused me to vomit. I quitted to eat most of the food as they triggered it.

A friend refered me to the Headache Clinic last year. I went there this year in March. On the 13th March 2009 i was given Posture Modifying Appliance to put inside my mouth after two weeks the headache was gone. I am happy now and on top of that I eat those food which were triggers to headache.
