Subject: Re: THE HEADACHE CLINIC

Testimonial

I used to suffer very severe migranes & i had no idea what triggered them. When i had these attacks i could barely do anything as any light or noise would aggravate these migranes more.

My mother suggested that i go to the headache clinic for help so i went. The people there were very helpful & ran a series of tests to determine the root cause of these migranes. A tension test was done amongs others & we found that the headaches could've been caused by this severe amount of tension on my neck & facial muscles.

A mouth brace was made for me & in the first 24hrs i could feel a difference. Since i started wearing the brace, the headaches started to become less aggressive & the frequency also decreased. After about six weeks on the brace i didn't experience any more headaches to date.

My experience with headache clinic has thus been a very pleasant one and this is because off Simone(the nurse that helped me) and Henry, who never failed to check up on any progress or problems.

Thank You Headache Clinic

Blessings
