Subject: Testimonial

Dear Dr Shevel,

I just wanted to give you some feedback . Since the surgery my migraines have been reduced dramatically - I have only suffered two very light incidences which I could cope with easily. This is from an average of 15 migraines a month. The shoulder pain still troubles me a little but it seems to be abating. I am so enormously grateful for your help - it changed my life completely. I am almost free of pain now.

Thank you!

Ashka Wierzycka
